Portable Container Scales

Portable Container Scales

PRODUCT FEATURES

- > **Optimising Payloads** - weigh the container as you load. Avoid overloading and maximise your payload
- > **SOLAS VGM** - capture the VGM at the earliest opportunity and eliminate third party weighing fees
- > **Control risk** - manage your transport and export weight limits
- > **Compliance** - spot check containers and loads, eliminate misdeclarations
- > **Portable** - eliminates the costly and time consuming process of weighing individual cargo items and moving containers to off-site weighbridges
- > Specifically designed to interface with ISO 1C Flatrack and Container Roll Out Platform (CROP)
- > Components:
 - 4 x calibrated wireless scales
 - 4 x hydraulic bottle jacks
 - 4 x steel ground plates
 - 1 x custom trolley
 - 1 x master display
 - BISON VGM app

ECLP-101814_v1-0

SPECIFICATIONS

Unit of Measure	Weighing Capacity	Display Increments	OIML Approvals	National Approvals	Load Cells
kg or lb	35,000 kg / 70,000 lb	50 kg / 100 lb	OIML R-76 MAA and OIML R-60	Type approved in multiple countries	10,000 kg weighing capacity per scale. 150% service overload capacity. 300% ultimate overload limit.
Controls		Construction		Power	
Single button on/off and re-zero each scale		High strength steel frame with thermoplastic powder coat. Tough glass-filled nylon casing.		4 x standard AA batteries per scale 40+ hour battery life cycle
